

## Dr. Wilson Bonfim Newsletter

Dear brothers and sisters

Grace and peace,

This is the first report about our activities on the UMVIM development in Brazil under the leadership of Evangemed.

.  
A lot of stuff going on here.

Our team of 3 young people are already in Estonia. Pray for them.

About Myammar coalision.

This is a short report of our efforts to booster our Brazil VIM. As we cant work alone we have partnered in a bigger effort. We have decided to establish the Brazilian Myamar coalision in our last medical fellowship meeting in May within our disaster response group.

Our 7 members of the Brazilian coalision went to Myamar during the whole month of July. We have had established a school in Jackarta since the earthquaques. When we were developing the work in Kackarta and Timor East so we faced the Cyclone. We have decide also too join the efforts in Jackarta and our chrsitian ambassador Margaretha has consulted with the international leadership and local pastors to request permission to work in that area and teh response came during our meeting in May.

This is the link for the some of the activities in portuguese But you ou can figure out some from the pictures. The face pictures are covered for protection of the doctors.

Our name here is AME. ( NGO specially created to provide cover for the church) We have avoid to call it a church work. The name of our organization called AME means "to love" in portuguese. We have raised about 8 ton ( 8.000 kilograms) of supplies and sent by our coalision.

We know it is not enough but is our part.

I hope to receive some United Methodist Men in our event in August here from North Georgia Conference for sharing and reply visit their in September.

We need to thank all that you have invested in the kingdom here.

Pray for us.

Wilson
