

Greetings from Honduras,

As always, we hope you are enjoying the blessings of God in your life. We were truly blessed this past week with the team that worked with us from Brentwood United Methodist in Brentwood Tennessee. They helped so many very needy people while they were here. From the remote villages of Lepaterique & Los Jobos to a poor neighborhood here in the capital. We served our Lord with gladness in our hearts and compassion for our fellow man. In turn, God filled us with a satisfaction of a job well done, but also with a longing to do much more. We laughed a lot and a few tears were seen also for the condition under which the poor live.

From Dr. Ana

What a wonderful Team we worked this last week!! What Can I say about these wonderful people? Too much!!

I want to say THANKS to Brentwood's team for coming and helping us to help those in need. For me, It was a blessing to work with them.

I would like to say words of praise to all these people but words are not adequate to express my gratitude. During the week I noticed each one of them.

Chip always was insuring that everything was working in harmony for everybody. His remarkable interest establish strong bonds of friendship among all. And of course, his good humor and enthusiasm encouraged all to work harder than ever. And His leadership was excellent. The pharmacy team stood up under the flood of patients that Doctors Pat, Ana, Sandra and Cissy sent. All of them worked very hard getting the right medicine for each patient and counting & bagging pills to be ready for the next one.

Thanks Dr. Pat and Cissy Morse for letting me work side by side. And I learned from your hard work and deep compassion for my Honduran people. And all the translators put in practice their knowledge and kindness each day. And what a marvelous time speaking English and Spanish with Steve, Mike and Andrew. What a sweet lady is Amanda. Always trying to hug all the children. Wishing she spoke Spanish to express her deep feelings to everybody. Excellent nurse!! And Becky, an intelligent nurse. Using her tremendous skills running the pharmacy and helping the doctors as needed. Many thanks to Juanita and all her hard work preparing the medicines to be given out to the patients. And a real big thanks to James for counting the thousands of pills that kept us going.

Being great Christians to do everything possible in Christ. But obedience to Christ always brings fulfillment.

When the Lord gives you instructions, obey immediately. Do not wait until you have figured it all out and everything makes perfect sense to you.

Sometimes God will lead you to do things that you will not fully understand until after you have done them. He does not usually reveal all the details of His will when He first speaks to you. Instead, He tells you enough so you can implement while He withholds enough information so that you must continue to rely upon His guidance.

And He sent out two of His disciples and said to them, " Go into the city...Mark 14:13
