Preparing your items for Consignment

Clean, wash and make it shine! The nicer your items look, the quicker they will sell. If you think a toy could use a scrub down before you bring it, give it a scrub. A quick touchup with the iron makes a huge difference in presentation and how your clothing will sell.

Clothing

- All tags must be printed using the format provided on the mysalemanager website accessible from the church's website <https://www.fumct.org/little-lambs>. Tags must be printed on **white** cardstock paper. Items with handwritten tags, or tags printed on plain computer paper will not be permitted.
- Clothes should be placed on a hanger; the hook should be facing left so it makes a question mark.
- Tags should be pinned to the right side when looking at the front of the garment (see picture)

- Pants can be hung with a pant-clip hanger, or pinned on a regular hanger through the waistband.
- Safety pins are the only acceptable method for placing tags on your clothing. Tagging guns, staples, and tape are not permitted.
- All clothes including onesies, pajamas and other sleep-wear must be on hangers.
- Items not properly hung must be re-hung before they can be accepted.
- If you are selling multiple clothes together as an outfit or lot (ex: multiple onesies), rubber band the neck of hangers together, or pin to the back the additional items.

Pieces of sets often lose their partner, therefore it is recommended to label each piece of a set with your consignor number and item number.

Non-Clothing Items

- Shoes: shoes are funny in that one likes to walk away. Keep them together with a zip tie or tied together with the tag attached. Do not bring shoes in boxes. If using a Ziploc bag, tape the tag to the outside of the bag. Be sure not to tape over the barcode.
- Toys and Equipment: Place any accessories in a Ziploc bag and attach it to your item with a zip tie or clear packing tape. Please use zip ties to secure your tag on any item that could be damaged by tape. Batteries must be included in all battery-operated items.
- Accessories: blankets, swaddle blankets, lovies, etc., should not be placed in Ziploc bags. If selling multiples together, please pin together as a group. These items will be examined for stains like clothing.

Sort Your Items

If you sort your items before you enter them into inventory, it makes the process go faster! By putting your clothes in size order before you start entering, you don't have to keep changing the size for each item you enter.

Your dropoff appointment will go quicker if your items are in order by item# when you bring your items to the church.

Pricing your Items

*How much would **you** pay for it?*

- Be conservative when pricing your items so they will sell quickly.
- A good rule of thumb is 1/3 of their original sale price for excellent condition, and 1/4 of their original sale price for good condition.
- When pricing clothes, remember we receive many items in the 0 – 24 months range. To be competitive, try selling multiple items together.
- Items must be priced at \$1 or above in whole number increments.
- We recommend marking your items for the half-price sale.

Consignor Tips

- One inch or larger safety pins work best when securing tags.
- Clearly identify your item when writing the description on the tag. This helps us match a lost tag during the sale (ex. Gymboree yellow plaid dress)
- Heavier items such as jeans are best paired in smaller quantities and pinned with larger/stronger safety pins to ensure items are kept together.
- Questioning if one of your items has been recalled? Check your items at www.cpsc.gov. Don't forget to email the Little Lambs Recall committee at recallslittlelambs@gmail.com

Using Mysalemanager

All inventory must be entered by Sunday, August 23 @ 6:00 pm.

Entering Items

1. Connect to the mysalemanager webpage from <https://www.fumct.org/little-lambs>
2. Click Consignor Inventory Entry and Tag Printing
3. Type in Consignor Number and Password (you created this when you first registered as a consignor) and click Login.
4. Click on Work with my Consigned Items (Active Inventory)
5. Begin Entering Tags. *Remember tags can only be printed on white cardstock paper.*
 - a. Category: click the arrow for a drop-down list and highlight the category your item should be listed under
 - b. Size: click the arrow for a drop-down list and select the size for the item.
Remember that S, M, and L should not be used. Please assign a numerical value for each piece of clothing. Clothes not following this procedure will not be accepted.
 - c. Description Line 1: Enter a description for your item. Be as detailed as possible including brand, color, design, etc.
 - d. Description Line 2: additional room for more description. We use this information to search the inventory system should a tag become separated from an item.
 - e. Price: enter your price to sell in whole dollar amounts
 - f. Quantity: Enter how many items you have
IMPORTANT: this setting is for if you have 2 identical entries, not a set. So if you enter that you have 2 of Item X, it allows you to sell 2 of X as individual items. Do NOT use this to print multiple tags for pieces of a set being sold together.
 - g. Check to Discount: Click this box if you want your item to be half-price at the sale on Saturday. Failing to check this box indicates your desire to **not** discount items on Saturday.
 - h. Submit Item: Once you click this box your item will appear in the inventory list below
 - i. I'm finished for now: Clicking this will save your current inventory for access at a later time.

Printing Tags

1. Load your printer with **white** cardstock. Remember that tags printed in any other color cannot be accepted because of the sensitivity of the barcode scanners.
2. Click on Inventory Entry and Print Tags.
3. To Print All Tags: click on Print All Tags.
4. To Print Selected Tags: click on Print Selected Tags. Check each box on the tags you want to print and then Print Selected Tags.
5. When printing tags, be sure your printer is **not** set to “Fast Draft” or “Econo-Mode.” In the past, tags printed that used less ink were not readable by the barcode scanners.
6. Be sure that your printer is set to **print SIX tags per page**. Any smaller and they may not scan in during check-in.
7. Ensure your barcodes are printing with complete lines. Barcodes with broken lines may not scan in properly resulting in reprinting and tagging all items again. This is an example of a barcode with broken lines:

New Ink Cartridges tend to smear the ink which makes the barcodes unreadable with the scanners.

Printing Inventory Report

1. Load your printer with **regular** computer paper.
2. Click on Consignor Inventory Entry and Tag Printing
3. Click on View/Print Inventory Report
4. ***Be sure to bring a copy with you to check-in. You will not be allowed to check-in without an inventory report.***

Check-In Instructions

1. Sign-up for a check-in time via mysalemanager.
2. Come approximately 15 minutes prior to your scheduled check-in to unload items and organize them by category.
3. **Bring your completed inventory sheet!** We keep the original copy of your inventory sheet. Your final reconciliation listing (Sold Items Report) which shows which items were sold full price, half price, and returned will be available online at the conclusion of the sale.
4. Please allow 15 – 45 minutes to drop off your items as they will be inspected for adherence to the previously stated guidelines. Please do not be offended if something is returned to you. We strive to provide the highest quality merchandise to our shoppers.

- All items will be sorted and ready for pick-up after the sale.
